

4/27/99

Dear Mrs. Henney,

I urge you to save human lives by banning the use of medically useful antibiotics in animal feed.

Antibiotics in animal food promote bacteria resistant to those same antibiotics people use + that can leave doctors with no way <sup>to</sup> treat life-threatening infections in humans. That's why I support CSPI's <sup>petition</sup>. I have never used penicillin (or <sup>or</sup> very many antibiotics) in my long life + if it's ~~ever~~ necessary for me to use antibiotics for a serious illness I hope they will still work.

Thank you.
